

Fold or cut along the dotted line

If you are printing this it should measure 300mm between the dotted lines

Shoe Sizing Chart

Measuring Instructions:

- 1) Fold or cut along the dotted line.
- 2) Place the paper flush against a wall.
- 3) Place both your heels at the base of the chart against the wall and relax your foot. The line your longest toe touches indicates what size you are.

- 4) Make sure that you measure both feet as most of us have two different sized feet. Use the larger of the two.
- 5) Please ensure you allow for a little growth in the child's feet by adding a size if necessary.
- 6) Place the order for your school by logging on our online portal at <http://www.kidscan.org.nz>
